2. Current Challenges / Problems

The coffee shop owner is currently facing:

1. **Sales Fluctuation:** Revenue varies significantly between weekdays and weekends.
 2. **Customer Retention:** Difficulty turning first-time visitors into regular customers.
 3. **Inventory Management:** Wastage of perishable items due to uncertain demand.
 4. **Staff Productivity:** Inconsistent performance leading to delays during peak hours.
-

3. Key Performance Indicators (KPIs) the Owner Wants to Track

To address these challenges and grow the business, the owner wants to track:

- **Monthly Sales Revenue** – to monitor overall income.
 - **Customer Footfall** – to know at what time footfall is max.
 - **Average Order Value (AOV)** – to optimize upselling opportunities.
 - **Total Orders** – to know the actual sales
-
